EDUCATION

B.S Abdur Rahman Crescent Institute of Science and Technology — **2020 - 2024**
B.Tech in Artificial Intelligence and Data Science — Aggregate CGPA : 9.81
Ananthavalli Matriculation.Hr.Sec.School — **2019 - 2020**
12th state board — Percentage : 86.3%
Ananthavalli Matriculation.Hr.Sec.School — **2017 - 2018**
10th state board — Percentage : 93.8%

SKILLS

Analytical Tools: Power BI, Advanced Excel
Programming Languages: SQL, Python - Matplotlib, Machine learning , Pandas , Numpy.
Database: MySQL
Core Competencies: Communication skills – Master of Ceremonies(MC) for seminar events.

PROJECTS

SALES INSIGHT DASHBOARD using POWER BI

- Developed a comprehensive sales insight dashboard using Power BI, facilitating revenue and sales tracking, revenue breakdown by regions and products, and identification of revenue trends.
- Conducted data cleaning and merging to ensure data accuracy and consistency for analysis and created visually appealing and interactive dashboards, enabling **stakeholders to track revenue and sales numbers effectively**.
- Tech stacks used are Power BI and MySQL

ROAD ACCIDENT DASHBOARD using EXCEL

- Developed a comprehensive road accident dashboard in Excel, utilizing pivot charts, slicers and various other chart types to present insights. Performed data cleaning , data processing and data analysis on the dataset.
- Analyzed the data to identify trends in road accidents for the years 2021 and 2022, the number of casualties by vehicle type, road type and road surface.
- Leveraged Excel's functionalities to create **dynamic and interactive charts**, enabling stakeholders to explore the data and gain valuable insights.

REAL ESTATE PRICE PREDICTION using LINEAR REGRESSION

- Developed a Bengaluru real estate price prediction project, involving data cleaning, feature engineering, data visualization, and model building. The model provides valuable insights into the pricing dynamics and can assist stakeholders in making informed decisions.
- Achieved an **accuracy of 80%** on the developed model, demonstrating its effectiveness in capturing the relationships between the number of bedrooms, total square feet, number of bathrooms, kitchen and the predicted price.
- Tech stacks used are **python** as programming language, **pandas** for data cleaning, **matplotlib** for data visualization, **sklearn** for model building.

CERTIFICATIONS

NPTEL CERTIFICATION – THE JOY OF COMPUTING USING PYTHON

- NPTEL Certified in Python language with a score of **91%**, ranking in the **top 5% elite**.
- Demonstrated proficiency in Python through successful completion of NPTEL certification exam.
- https://drive.google.com/file/d/12Oi737ixiHrH0dfVSctAdiOiGJOshZMz/view?usp=drive_link

INTERNSHALA MACHINE LEARNING CERTIFICATE

- Completed a comprehensive six-week online certified training on Machine Learning, encompassing modules like Data Exploration, Linear Regression, Logistic Regression, Decision Tree, and Clustering.
- Earned certification with a score of 64% in the final assessment, demonstrating proficiency in various aspects of Machine Learning.
- https://drive.google.com/file/d/1_P4f_dRGqve-krUID0STUEehpGYL_b-H/view?usp=drive_link
